Specifications

Product Name	100Mbps Ethernet Splitter 1 to 2
Function	Divide the input network port into two channels for simultaneous output
Input Interface	Gigabit Ethernet Port • 1PC
Output Interface	Gigabit Ethernet Port • 2PCS
Transmission Rate	Maximum Transmission Rate 1000Mbps
Working Voltage	Maximum Working Voltage 5V
Working Current	Maximum Working Current 300MA
Transmission Distance	Up to 100 meters of transmission distance is supported
Product Accessories	USB Type-C Power Cord • 1PC
Product Size	50*40*21mm
LED Indicator	1 • Power Indicator 3 • Link/Act Connection Status Indicator
Forwarding Rate	10Mbps: 14880pps/port 100Mbps: 148800pps/port 1000Mbps: 1488000pps/port
Power Input	DC 5.0V=0.5A Max

*Note: IPTV signal cannot be viewed simultaneously on two televisions(*Please refer to the actual situation if the above data is of high precision)

Indicator Description

LED Indicator	Status	Description
Power Indicator	Solid Green	Power supply works properly
	Off	The system is not powered or the power supply is abnormal
Link/Act Indicator	Solid Green	Device Connected
	Off	No Device Connected
	Flashing Green	Data Transmission

Product Introduction

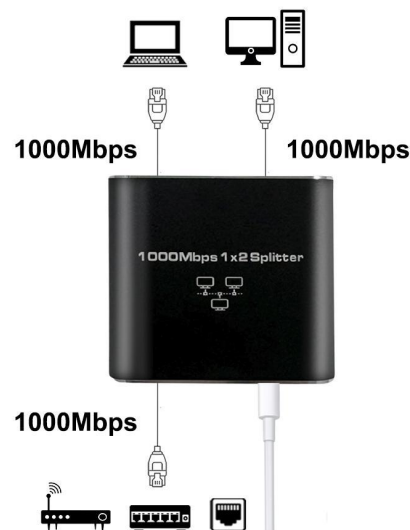

- This is the 2 port RJ45 Ethernet Splitter (1 RJ45 port Female to 2 ports Female), and also, it can be used in reverse (2 RJ45 female port to 1 RJ45 female port).
- It transmits 100 meters over Network LAN Cable.
- It supports 1000Mbps Network.
- This upgraded network three-way adapter can access IPTV internet broadband simultaneity.
- Aluminum material and compact size.

-4-

Product Introduction

- One pair is used to realize one network cable and two network devices work at the same time. One Internet port and two computers are connected to the Internet. IPTV and router are networked at the same time. One network cable connects two monitors. This ethernet splitter can help you achieve.
- Network adapter usage. This RJ45 adapter can solve the problem of insufficient embedded network cables in cabling engineering, and is suitable for set-top boxes, routers, computers, monitors and other network devices.
- Multiple uses are waiting for you to discover. The network three-way connector can realize the free line between various network devices. For example, router+IPTV, computer+router, IPTV+IPTV, router+router, etc.
- Please use 5V1A power supply to power the machine
